

Frontend developer with focus on Vue (m/f/d)

For the relaunch of our API-based real estate valuation platform, we are looking for motivated contributors who, in addition to well-developed JavaScript/TypeScript skills, already have 2+ years of experience in the Vue framework and know how to create modern web designs with Figma.

You can already look back on practice-oriented projects based on Vue/Figma, maybe you have even implemented complete applications with these technologies and would like to contribute your knowledge to an established, growing company with disruptive potential? Then you've come to the right place.

We are an owner-managed and independent PropTech company with a multinational team specializing in the targeted digitization or automation of operational business processes in the field of real estate valuation. In this way, we enable our 250+ customers to extensively exploit digital potential.

Your field of activity

- UI/UX design of central software components (e.g. valuation report module)
- Programmatic frontend implementation of the acquired designs
- Refactoring of existing UI components
- Optimization of usability, performance and long-term maintainability
- Transfer of framework-specific knowledge

Your profile

- Computer science degree or comparable (practical) qualification
- Experience in the area of web technology (especially TypeScript, Vue and Figma)
- Independent, goal-oriented and structured way of working
- High demands on code quality
- Ability to work in a team and reliability
- Good communication skills

Your advantages

- Flexible and location-independent working hours
- Young team and cooperative working atmosphere
- Flat hierarchies with short decision-making processes
- Room for personal responsibility and personal development
- Fair and performance-related remuneration
- Modern work equipment

You are convinced and want to become part of our team to actively shape the digital future of real estate valuation? We look forward to receiving your application documents at jobs@proptechtools.de.
